# Broadcom VMware Workstation Pro Instructions

Create an account with Broadcom and select "for Personal Use" for either Windows or Linux. Downloading the application involves multiple screens to verify your account.

Register to Create a Broadcom account:

https://profile.broadcom.com/web/registration

1. Please check your Spam folder if you do not see an email from Broadcom.
2. Put in your verification code and select Verify & Continue.
3. Complete the Registration information and select Create Account.
4. Select Login. Type in your username, select Next, put in your password and select Sign in.
5. Select VMware Cloud Foundation from the Software pull down in the upper right-hand corner, select My Downloads, and in the Search Product Name box, type VMware Workstation Pro. If the "Free Software Downloads available **HERE**" box appears, click on **HERE**, and in the Search Product Name box, type VMware Workstation Pro.

6. Select VMware Workstation Pro, VMware Workstation Pro 17.0 for Windows, and select version **17.6.4**. REMEMBER: Check the box "I agree to the Terms and Conditions" if you agree to the end-user-agreement.
7. You will be asked to verify your information before downloading the application.

8. Select Yes. Please fill out the form. Download and install the application.
9. If you would like to log into your account again, go to https://support.broadcom.com
